

L'interfaccia utente non funziona dopo la sostituzione della scheda di alimentazione
DESCRIZIONE:

La lavastoviglie equipaggiata con la scheda di alimentazione PB150 rimane spenta dopo la sostituzione e la riprogrammazione della scheda di alimentazione. Il Sidekick non visualizza alcun errore dato che la riprogrammazione ha avuto successo. Il problema è causato dal firmware della scheda di alimentazione incompatibile con il tipo di motore dell'apparecchio.

SOLUZIONE:

Ordinare una scheda di alimentazione apposita per motore montato nell'apparecchio.
